- Questionnaire -

- Q1** There is much concern about the rapid rise in medical and hospital costs. Some people feel there should be a government insurance plan which would cover all medical and hospital expenses for everyone. Suppose these people are at one end of a scale, at point -5. Others feel that all medical expenses should be paid by individuals through private insurance plans like Blue Cross or other company paid plans. Suppose these people are at the other end, at point +5. And, of course, other people have opinions somewhere in between, at points -4, -3, -2, -1, 0, +1, +2, +3, or +4. Where would you place yourself on this scale?
